## ***EVENT REPORT***

Adhyay - The city chapters meet with Alumni started with the vision of establishing a liaison amongst the Alumni and the Allies of IIMU, residing in the same city. Every year we receive heat-winning responses from the torch bearer of the institute.

The batch strength of IIMU is increasing with each batch and so does the size of Alumni Base. Adhyay is a great platform to connect with visiting faculty, retired professors, friends in the Industries; these are the support structure, who nurtures the institute with their guidance. With this association at the city level, Adhyay fosters the synergy benefiting our Alumni, our Allies, and the Institute
