Udaipur

Recruitment Process

IIM Udaipur's Corporate Relations Team of dedicated professionals oversees the recruitment process. Under their supervision, the Student Placements Committee facilitates all interactions with the companies. A Relationship Manager is assigned to be the specific point of contact for each company.

We encourage companies to visit our campus and conduct the entire process in person. When this is not practical, Skype, video-conferencing and telephonic facilities are available.

Summer Internships

Recruitment starting in October (for first year students)

Summer Internships are eight weeks long and take place during the months of April, May and June. They are a mandatory requirement of the course.

► Pre-placement Presentations

Companies have the option of engaging with the students using pre-placement presentations where they brief them about the projects on offer.

► Schedule

The selection process typically begins in the last week of September. Companies are invited to campus based on their convenience and the slot is decided after discussion with the Student Placements Committee.

► Placement Process

Typically, the process begins with shortlisting based on the resumes of the students. This is usually followed by group processes like GDs, case studies or written tests, depending on a company's selection policy. The final selections are generally based on one or more rounds of personal interviews. The companies provide a list of the selected students to the Student Placements Committee.

Most companies also indicate the students whom they want to keep on the waiting list, ensuring that both the companies and the students are able to make the most appropriate choice.

► Post-placement Process

Companies send official letters to the candidates through the Student Placements Committee. The HR managers then take over and connect the candidates to their project mentors in the company and take them through the induction process.

► Summer Internship Review

IIMU is committed to ensuring that students deliver their best performance during the internships. There are three reviews: one at the end of the second week; one midway through; and one at the end of the project.

► Pre-placement Offers

Companies have the opportunity to make final job offers to candidates who perform exceptionally well in the internships before the start of the final placement process.
