MBA - GSCM
2025-26**

12 month program in
Global Supply Chain Management

भारतीय प्रबंध संस्थान उदयपुर
Indian Institute of Management Udaipur

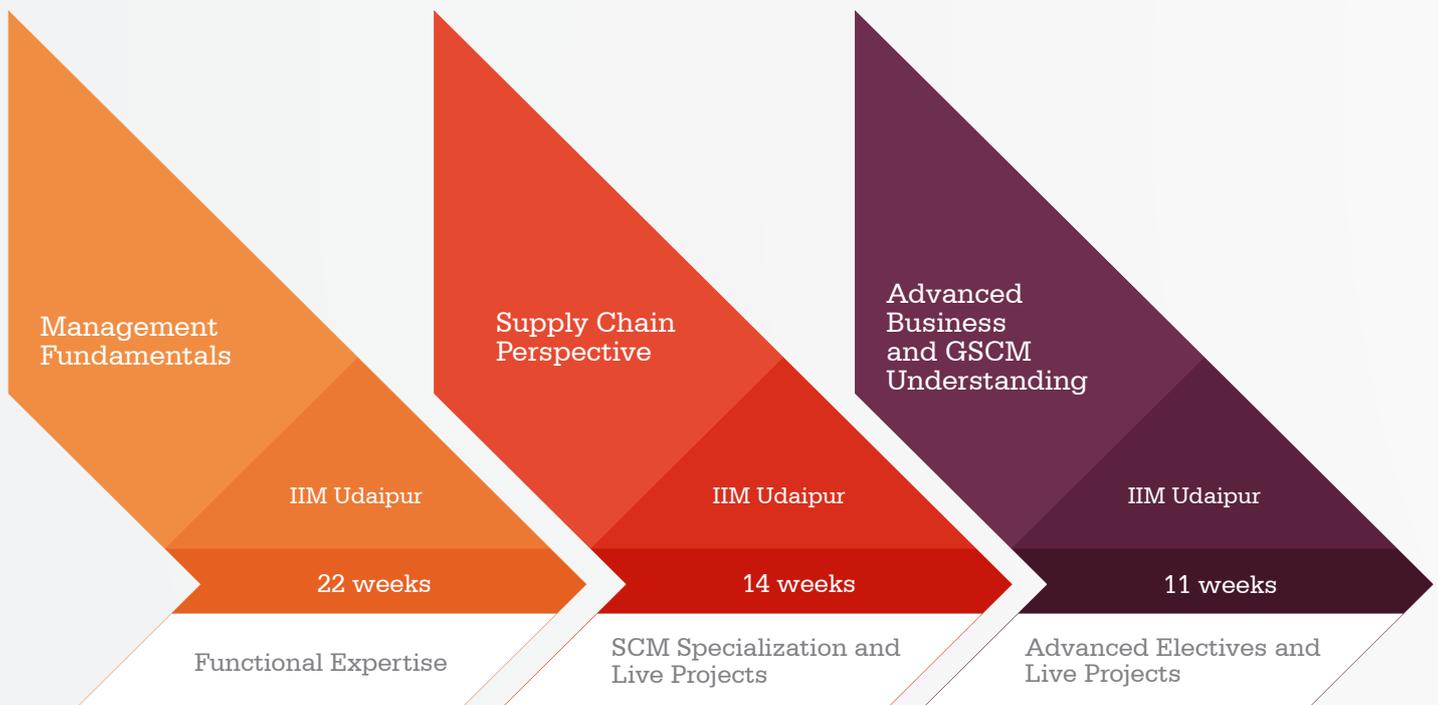

A solid foundation in Management Fundamentals + an intensive specialization in Global Supply Chain Management

The 12-month, full-time MBA program in Global Supply Chain Management (GSCM) is for experienced professionals who want to excel in a career in Global Supply Chain and Logistics Management. It is the only one-year MBA program offered by an IIM in this domain. The program provides a solid foundation in management fundamentals as well as in-depth knowledge in Global Supply Chain and Logistics Management to start or enhance one's career.

► One Year MBA - Global Supply Chain Management (GSCM)

Indian Institute of Management Udaipur

► Message from the Director

At IIM Udaipur we strive to ensure that innovation and excellence are part of everything we do. That was our motivation in creating the **One Year MBA - GSCM, a 12-month full-time program for experienced professionals focused on Global Supply Chain Management.**

With increasing globalization, businesses now work without boundaries. Their field of operations is shifting from local markets to global markets. As a result, supply chain is not just an operating division within firms but has become a real source of competitive advantage.

With the objective of developing the business leaders of tomorrow in the field of Global Supply Chain Management,

Ashok Banerjee
Director, IIM Udaipur

IIMU has designed this unique program that builds on the core strengths of operations, supply chain and logistics management. This program equips students with the skills to deal with complex supply chains spanning multiple nations around the globe.

IIMU's GSCM program demands equal academic rigour and uses the same grading criteria as a two year MBA. It is uniquely conceived to ensure students acquire the business tools, global mindset and interpersonal skills they will need as they pursue their professional career.

Key Elements that drive the GSCM program

▶ Industry Best Practices

The curriculum provides a solid grounding in the essential business disciplines, a concentration in Global Supply Chain Management, and an opportunity for students to select electives to align with their career goals and personal interests. The program encourages students to relate academic theory to real-world practice and to collaborate with corporate partners in and out of the lecture hall throughout the entire 12 months.

▶ Peer Learning

The program builds on the extensive work experience of the students. In the classroom, IIMU uses a case-based learning approach. The case method brings real life into the classroom and encourages students to participate actively in their own learning. The case method is complemented by seminars, simulation games, role-playing, guest lectures and multiple group exercises. Group activities range from working on group assignments and case presentations to working on live industry projects. Study groups are composed of students from diverse academic, cultural and professional backgrounds ensuring that many perspectives of looking at a particular task or problem are brought to the table.

This kind of group work helps the students to probe into each other's assumptions and hypotheses, engage in horizontal learning and critical thinking and learn how to build consensus and recommendations for action. For each concept and theory covered in class, there is an attempt to incorporate an immersive learning experience outside the class. Students are challenged to adapt, negotiate and problem-solve while developing their interpersonal and communication skills.

▶ Analytics

Technology has placed torrents of data in the hands of managers making Analytics indispensable in decision making. IIMU has made significant investments into building the analytical capabilities of students by developing infrastructure and introducing innovatively designed courses.

▶ Mentorship

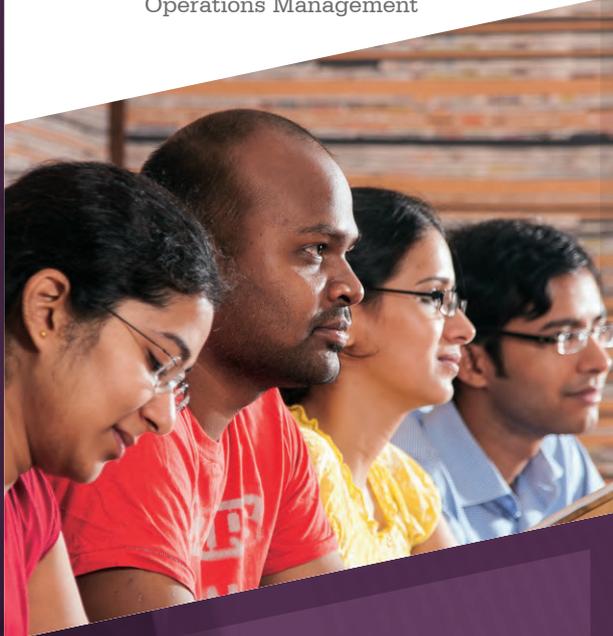

The Professional Mentorship Program provides students with an opportunity to benefit from frequent interaction with seasoned Supply Chain professionals from top drawer companies across geographies. These mentors regularly connect with the students to explore the supply chain management domain more deeply from a practitioner's perspective.

Course Curriculum

It is the only one-year full-time MBA program offered by an IIM in Global Supply Chain Management.

▶ The 'U' Advantage

The youngest AACSB-Accredited Management School in the country and was the 4th IIM to have attained it. Only 5% of B-Schools in the world are AACSB Accredited.

IIM Udaipur, the only IIM to be in the top 100 of the prestigious FT MIM Global Rankings 2024 consecutively for 6 Years since 2019

Indian Institute of Management Udaipur featured in the prestigious Masters in Management (MIM) QS World University Rankings 2024 for the Fifth consecutive year.

Ranked 4th in India after ISB, IIM Ahmedabad & IIM Bangalore, for research according to the globally recognized UT Dallas Rankings.

IIM Udaipur is ranked 22nd amongst all B-Schools in the NIRF Rankings 2024. The ranking shows the relentless pursuit of excellence in research and academics. It reflects the stalwart contribution of our faculty members and students, who have demonstrated their efforts in all fields.

Infrastructure

IIM Udaipur campus occupies 300 acres in Balicha about 8 km from the centre of Udaipur. The campus has state of the art classrooms and WIFI. Students are provided with air-conditioned single room accommodation. The campus has a fully equipped gym and other recreational facilities.

The master plan for IIM Udaipur's campus has been awarded GRIHA's 5 Star LD rating which is the highest level of rating for large developments. The architecture has been designed to minimize energy consumption. In addition to conserving power and water, the campus has been planned to be a zero-waste facility.

There is an atrium for Yoga, a room for meditation, a 24X7 medical center, an ATM and eateries.

Final Placements

(Starting November/December)

Pre-placement Presentations

Companies have the option of using a pre-placement presentation to give students information about their business, vision, work culture and the roles and opportunities available, followed by a Q&A session.

Placement Process

Interested students apply to the company and submit their CVs through the Student Corporate Relations Committee. The selection process generally consists of CV-based shortlisting and one or more rounds of personal interviews. Offers, including details of the role, location, compensation and other relevant terms and conditions, are conveyed to the candidate through the Student Corporate Relations Committee. The placement process is governed by the placement rules which are drawn up at the beginning of the academic year.

Post-placement Process

Once a company has made an offer as part of the campus placement process, a candidate is bound to accept/reject the offer within a stipulated timeframe. When a candidate accepts an offer, he/she automatically opts out of the placement process and ceases to be part of the pool of candidates available to companies.

The candidates are made the offer conditional on their successful completion of the program. The HR managers at the respective companies then take over to guide candidates through the induction and joining process.

Admissions

▶ Eligibility Criteria

- Minimum of 10+2 years of school education and a Bachelor's degree/equivalent qualification in any discipline with at least 50% marks or equivalent Cumulative Grade Point Average (CGPA). Applicants from SC, ST and PwD categories should have a minimum of 45% or equivalent CGPA. (minimum three years of bachelor's level education after completing higher secondary schooling).
- Valid GMAT Exam (10th Edition)/ GMAT Exam (Focus Edition) (Online or Center based) or GRE (at Center or at Home) score (not older than 5 years from date of GMAT/GMAT (Focus)GRE exam) or CAT score of tests taken in 2021 or later.
- Full-time work experience (after graduation) of minimum 36 months as of February 28, 2025..

▶ Admission Process

The admission process is completed in the following steps:

- Interested candidates fill in the online application form.
- Applicants are shortlisted based on the eligibility criteria and called for the second round, where they are screened through a personal interview.
- Successful candidates will be intimated by the Admissions office.

IIMU Campus

Located in pristine 300 acres, IIM Udaipur's campus has been awarded GRIHA's 5 Star LD rating which is the highest level of rating for large developments. In addition to conserving power and water, the campus has been planned to be a zero-waste facility. The overall design reflects the traditional fortress architecture that is a significant part of Rajasthan's history and culture. The Academic Block is at the heart of the campus with lakes on two sides and many courtyards (inspired by Udaipur's chowks) on different levels to take advantage of the multitude of views. An imposing plaza next to the water provides a central meeting place as well as a backdrop for large events.

Udaipur City of Lakes

IIM Udaipur is located in the Aravalli Hills at Balicha in the outskirts of Udaipur - the crown jewel of the state of Rajasthan. It was set up in 1559 by Maharana Udai Singh II as the nascent capital of the Mewar Kingdom. It is surrounded by the beautiful Aravalli Hills in all directions. This 'Venice of the East' has an abundance of natural beauty, striking lakes, architectural temples, museums, galleries, traditional festivals and rich culture. Located in a valley and surrounded by four lakes, Udaipur has natural offerings with a grandeur multiplied by human effort, to make it one of the most enchanting and memorable tourist destinations.
