Student Profiles Placements 2020-2022

SECOND YEAR MBA

IIM Udaipur's flagship Two Year MBA Program

Breaking the **Mould**

भारतीय प्रबंध संस्थान उदयपुर Indian Institute of Management Udaipur

Final Placements

Recruitment starting in November (for second year students)

The Final Placements process is when students are evaluated by prospective recruiters. Students with relevant work experience are generally considered for lateral positions.

Pre-placement Presentations

Companies have the option of using a pre-placement presentation to give students information about their business, vision, work culture and the roles and opportunities available, followed by a Q&A session.

Schedule

The selection process typically begins at the end of November. Companies are invited to campus based on their convenience and the slot is decided after discussion with the Student Placements Committee.

Placement Process

Interested students apply to the company and submit their resumes through the Student Placements Committee. The selection process generally consists of resume-based shortlisting and one or more rounds of personal interviews. Offers, including details of role, location, compensation and other relevant terms and conditions, must be conveyed to the candidate through the Student Placements Committee. The placement process is governed by the Institute's placement rules.

Post-placement Process

Once a company has made an offer as part of the campus placement process, a candidate is bound to accept/reject the offer within a stipulated time frame. When a candidate accepts an offer, he/she automatically opts out of the placement process and ceases to be part of the pool of candidates available to companies.

The candidates are made the offer conditional on their successful completion of the course. The HR managers at the respective companies then take over to guide candidates through the induction and joining process.
